

2014 was an exhilarating year of growth, impact and change at Think 360 Arts Complete Education. We are excited to share our fiscal year's accomplishments. Numbers alone can't convey the impact of our work. Every day wonderful things happen in schools where our teaching artists bring their energy, enthusiasm and talent to students of all ages and backgrounds. In addition, teachers continue to learn how to integrate the arts into their lesson plans, creating more dynamic educational experiences.

## 2014 Numbers in Brief

- 21,117** students impacted
- 2,187** teachers impacted
- 84** Schools & community venues served
- 15** Colorado counties served
- 62** teaching artists on the roster

## Programs in Schools

This year we implemented performances, workshops, and residencies for students in pre-schools, elementary, middle, high schools, libraries, recreation centers, and youth diversion programs. 48% of the schools we served are Title I schools. Our artist roster is unique in the breadth of disciplines and depth of artistic experience represented - dance, music, theatre, creative writing, visual arts, media arts and more.

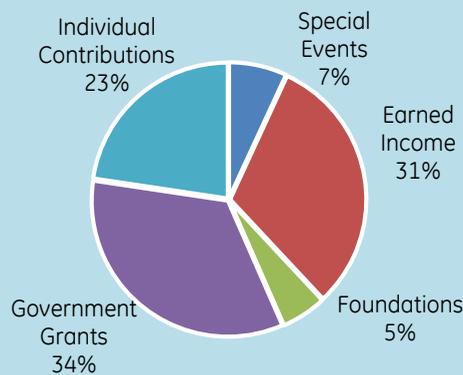

## Educator Professional Development

We celebrated the 25<sup>th</sup> year of our signature professional development program: the Institute for Creative Teaching. During this week-long course, participants learn how to engage students through the arts by putting cutting edge theory into practice. Together with other professional development workshops throughout the year, we trained 2,187 educators who in turn directly impact thousands of students on a weekly basis, quite literally bringing the arts to life for Colorado youth.

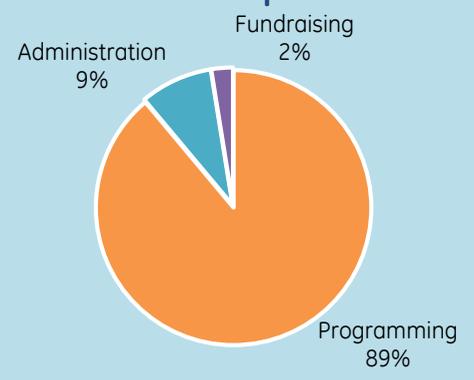

## Looking Ahead to 2015

We have set goals to launch our programs into more metropolitan schools than we have ever reached previously, to train and support a greater number of arts teachers, and to be the conduit for networking and communication for arts education statewide.
